NORAH AND OLIVE

Animal Ref Code: R377 R378

About them:

OLIVE: She is more outgoing than her sister and will often come over to greet you and see if you have any treats. She likes brain games and having something to do. Olive dislikes being brushed, however will tolerate it better than Norah. She is very food-driven and I believe with some one-on-one time could get better at being groomed as well as general touching/handling.

NORAH: Norah is a little shy but can also be very inquisitive. She will happily hop over to you and see if you have brought some treats. She enjoys chomping on her hay and playing brain games too. She doesn't like to be touched very much, held or groomed. As with Olive, she is very food driven and over time may become more comfortable.

Both girls have great personalities. They are sweet, gentle and do not bite. If they are feeling a little uncomfortable they will thump their feet to let you know. They are both quite intelligent and love figuring things out.
